Our Story

Southern Shine was built on two foundations: three generations of lighting expertise and real-world construction experience.

James comes from a family that helped shape lighting in Georgia — his grandfather opened one of the first Georgia Showroom Marietta Lighting, a name every builder in the region knows. That legacy of craftsmanship, reliability, and doing things the right way is still at the core of what we do.

George started with a construction cleaning business and brings the construction and service side background. The part of the service industry where quality meets deadlines. That experience shaped our mission: deliver high-quality products that arrive when builders need them, not whenever a container decides to land.

Together, we built Southern Shine Homes to offer the one upgrade that makes the biggest impact per dollar in a modern home: LED mirrors. After seeing how transformative these mirrors are — brighter bathrooms, cleaner installs, no light bars — we knew this wasn't just another product. It's the Future.

Today, Southern Shine pairs premium manufacturing with a straightforward promise: Exceptional mirrors. Honest timelines. No nonsense.

- -

Patented Production Technology

OUR ADVANCED TECHNOLOGY ENHANCES MIRROR DURABILITY, ACHIEVING AN INDUSTRY-LEADING 1.5% DAMAGE RATE THAT MINIMIZES BREAKAGE AND WASTE WHILE PRESERVING ELEGANCE. BY OPTIMIZING PACKAGING THICKNESS AND STREAMLINING LOGISTICS, WE HAVE SIGNIFICANTLY REDUCED MATERIAL AND TRANSPORTATION COSTS.
